SPAIN WILL ASK PEACE

Decisive Battle At Santiago Will End the Conflict

DONS WILL THEN ACCEPT THE BEST TERMS THEY CAN GET

London, June 6—Special—With news of the fall of Santiago and the capture or destruction of Cervera's fleet, now daily expected, Spain will doubtless sue for peace. This much is intimated in dispatches from Madrid. For several weeks the cause of Spain has been admittedly hopeless. The superiority of the American naval and military force is acknowledged in official circles, and Spain's only hope from the first has been in European intervention. This hope has now been abandoned, and the government is almost ready for surrender. An American victory at Santiago will settle the matter, and Spain will accept the best terms she can get. She hopes to retain dominion over Cuba and Porto Rico by granting those islands a government such as the British colonial possessions enjoy. It is believed here that the United States will reject such a proposition so far as Cuba is concerned and insist upon entire independence for the island, but will consent to autonomy in Porto Rico and the Philippines, retaining only a naval coaling station in each group. It is common talk here that the Emperor Francis Joseph of Austria will undertake the office of mediator on behalf of Spain, and make the best terms he can for that country. It is admitted generally throughout Europe, however, that the United States is in a position to dictate her own terms, and that Spain must accept them or face the alternative of practical elimination from among the great powers of Europe.

Torpedo Destroyer Destroyed.

Kingston, Jamaica, June 6—Special—News is received here today confirming the report from Port Antonio of the sinking of the Spanish torpedo boat destroyer Terror or Furor by the battleship Oregon.

According to the man who brings the information the Terror tried to sneak into Santiago harbor but the Oregon sighted her. One of the Oregon's shots sent her to the bottom, carrying all hands with her.

New York, June 6—Special—A dispatch from Mole, St. Nicholas says the cruiser St. Louis arrived here this morning. She brought news that five thousand troops were successfully landed near Santiago Saturday. A dispatch from the same place denies the sinking of a torpedo boat destroyer by the Oregon.

Carranza Must Leave Canada.

London, June 6—Special—It is understood that the colonial office has instructed the Dominion government to deport Carranza, the Spanish spy, from Canada. The government does not propose to permit British territory to be used as a base of information of a contraband nature. Polo, the late Spanish ambassador to Washington, was expelled for a less offense than Carranza's, and he as well as others like him will be invited to make themselves scarce in Her Majesty's dominions.

Waiting to be Taken.

St Thomas, West Indies, June 6—Special—Lieut. Whitney, U. S. A., has arrived from Porto Rico with the fullest information needed by the United States government to guide it in invading the island. Whitney reports that the Porto Ricans are waiting to be taken.

To Carry the War to Spain.

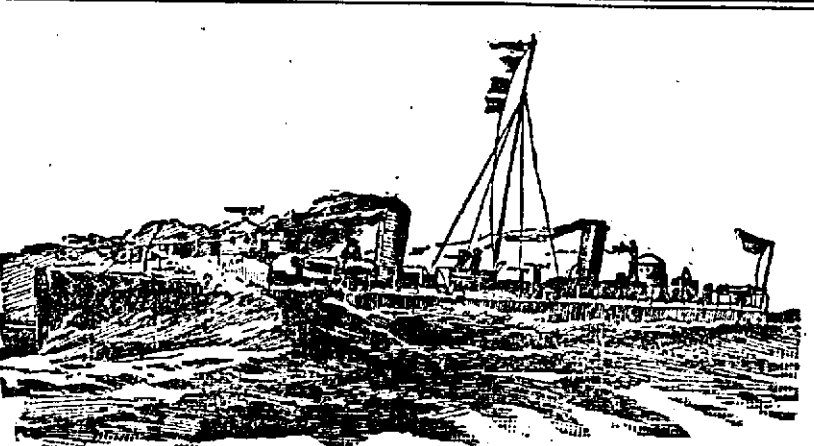

Washington, June 6—Special—There is talk in navy circles of carrying the war into Spanish waters. Information has been gathered concerning the Spanish reserve squadron with the idea of extending operations to the Canary Islands and Spain itself as soon as Cervera's squadron is captured.

A Brief Bombardment.

Madrid, June 6—Special—A dispatch here says the Americans ineffectually bombarded Santiago for forty-five minutes Saturday night.

Want a Loan

Madrid, June 6—Special—The cabinet has instructed the ambassador to France to negotiate a loan of five hundred million pesetas.

The Farragut is named in honor of Admiral David G. Farragut. She has a displacement of 273 tons and was built at the Union Iron works. She has an indicated horsepower of 5,600 and is fitted with two torpedo tubes.

NEWS OF THE SOLDIER CAMP

Bert Knott Writes An Interesting Letter To His Mother

Mrs. A. L. Snyder, of No. 8 Olive street, has received a long letter from her son, Bert Knott, who went to the front with Co. A. He gives an interesting account of camp life at Jacksonville and scenes round about. All the boys, he says, are in excellent health and spirits and find the change from the raw and rainy weather they experienced in Wisconsin to the warmth of Florida an agreeable one. The men are working hard to perfect themselves in drill and are succeeding so well as to win the praise of regular army officers. The beds in the tents are mostly comprised of moss gathered from the trees. The negroes who visit the camp are extremely black and ignorant and afford the boys no end of amusement. Mr. Knott notes the arrival at the camp of four Spanish prisoners captured on a vessel off the coast of Cuba. Although they are treated well they are not popular.

The location of the camp is extremely healthful. The dread of yellow fever has disappeared with acquaintance with those who have had the disease or have been exposed to it in the past. All the boys in the camp are impatient to get into active service and are wearying of camp life, even though it is pleasant in many respects.

A VETERAN WANTS SERVICE

Thomas J. Dunlop Proposes to Fight for His Country Once More.

Thomas J. Dunlop, of Philadelphia, was in the city this morning on his way to Washington to report to the secretary of the navy.

Mr. Dunlop, although sixty-seven years of age, has spent thirty-one years of his life in the United States navy. Of late years he has been leading the life of a traveling man, and at the breaking out of the war between the United States and Spain he offered his services, which have been accepted by Secretary Long.

Mr. Dunlop has served under Admiral Farragut and Commodore De Pont, and is more than pleased to know that he is once again to see service.

CROPS ARE GOOD IN DAKOTA

Sheriff Acheson Finds the Prospect For the Harvest Promising.

Sheriff Acheson, who has been traveling in North Dakota during the past week, returned home yesterday morning favorably impressed with the prospects in that section of the country. Plenty of rain this spring has set things right there, and crops of all kinds never looked better. In several sections along the Northern Pacific railroad they had too much rain, there having been seven bridges washed out along one section of the road.

The train on which the sheriff traveled was delayed seven hours by a washout.

COME WEST FOR PLEASURE

Summer Resorts Forake the Sea-side For Western Lakes.

Local campers who have spent the past few days at Ganova and Delavan lakes report a rush of business at most of the lake hotels. Although a little early in the season the majority of the resorts are now running wide open and are well patronized at good prices. Many of these early patrons are people who reside in the east and who have for years past spent their summers at seaside resorts on the Atlantic. The war with Spain has had a tendency to induce these people to seek their summer pleasure farther west this year.

SENT A BROTHERLY GREETING

All That Capt. Ruger Could Do to Keep an Appointment.

Captain Edward Ruger, who was to have led the Y. M. C. A. meeting yesterday afternoon, failed to make train connections at Eau Claire, and the best he could do was to send a telegram regretting the mishap.

In his absence the meeting was in charge of Secretary J. O. Kline, who delivered an excellent talk. In spite of the extreme heat there were fifty-two men present.

SANTIAGO IS ATTACKED

American Troops Landed Near the Forts and Fighting Begins

TROOPS AND SHIPS OPEN A HOT FIRE ON THE FORTS

Washington, June 6—Special—War and naval officials here believe the climax of the war will be reached this week. Santiago and San Juan are both expected to fall, perhaps within a few hours of each other. The combined forces of Americans and insurgents will attack the cities from land and sea simultaneously, and nothing short of a miracle can save them.

New York, June 6—Special—A dispatch to the Journal says a general engagement began at Santiago Sunday morning. The forces of the United States and Cubans are co-operating. Very heavy cannonading continued all day. A landing was made by American troops three miles from the entrance to Santiago harbor.

It is reported the troops were put ashore under cover of Sampson's guns, the shore batteries having first been silenced by a bombardment. Late reports say the firing still continues.

REV MR DENISON SPEAKS OF PERSONAL RESPONSIBILITY

All Men Are Responsible For Something Besides Their Own Conduct — Rev. Mr. Hall Discusses the Life Of Christ—Rev. Mr. Kempton On Spiritual Things.

Yesterday morning a very large audience listened attentively to Mr. Hall, as he spoke on Christ's great miracle of feeding the five thousand. Christ was moved with compassion for the great multitude, "who were as sheep not having a shepherd." He taught them. He satisfied their bodily hunger, their heart hunger, then their body hunger. He recognized the threefold need of man. Mr. Hall drew many lessons from the great miracle. Christ used what the disciples had. That with the divine blessing was enough. He seated the multitude in companies of 50 or 100, teaching system. The disciples must receive, before they could give. The truth we appropriate we can give to others. When they had placed the food before the multitude their responsibility ceased. Let us tell people God's truth and quit worrying about results.

Mr. Hall's remarks on war parallels last night were in part as follows. Some people teach us what not to be and what not to do. They make swine of themselves and get covered with mud, and God lets the rest of us see them so that we may see how mud looks on a man, and get indignantly disgusted and keep out of the mire ourselves. Christ said "Follow me," not alone by his words, but by the quiet and even splendor of that life so matchlessly strong and beautiful. Others by their lives say "Don't be a blockhead. Don't follow me." Such a young man made an exhibition of himself, when the train was pulling away from Camp Harvey. He was not, I am glad to say, a Janesville boy. He had been drinking of course. If you want to make a particularly successful idiot of yourself, begin by taking a few drinks. How would it be to label all strong drinks "Make a fool of a man!" so that a man would be compelled to say, I want five or ten cents or a quarter's worth of "make a fool of man." Well, this young man had had at least a dollar's worth of this stuff or he took it to naturally. His hat was on the back of his head. His eyes decidedly lary. His voice was loud. His articulation was thick. He laughed at the fearful women and the sober men. He joked about being shot. Every body said or felt, "How disgusting." Why? War is not sport. It is most serious business, and seriousness not slippant, becomes those who go into it. So it is with life. Life is grandly serious business. To be absolutely faithful to ourselves is a very large undertaking.

Young people should not be slippant irreverent and thoughtless. Realizing the high worth of success and the ignominy of failure and that the results of mistake are irrevocable how carefully should the young enter life. You see the importance of this, especially when you remember that now life directions and life habits are being formed. Be jubilant at times, throw away care as you would toss a stone from you, sing and shout with all your lungs, if you like. But don't be thoughtless, irreverent or slippant. Pray often, "Guide me O, thou Great Jehovah." Bye and bye you will hear a whisper, that will grow into distinctness, "I will instruct thee and teach thee in the way thou shalt go." Mr. Hall then spoke on providence in national history and individual living. He spoke on the great variety of war ships, and of people. God can use each of us. He spoke of the cost of war, and the cost of quarrel and worry. He spoke of award and reward for soldier and marine when the war shall cease, and for all who shall be faithful when war shall be no more.

AN ALTAR TO GOD.

Rev. Mr. Kempton's Sermon at the Baptist Church Yesterday.

A goodly congregation greeted Pastor Kempton yesterday. His subject was, "Seeking to Sacrifice." His text was in Genesis, 22-9: "Abraham built an altar there."

Abraham believed God's promises. A son was given him, but he is not asked to sacrifice him to his God. Abraham's faith failed him not. He was ever after called the "father of the faithful." He takes his journey and finds a place to sacrifice. So with every Christian; he should seek a place to sacrifice. The reasons why we should sacrifice are:

1st. We should follow our Lord. He has given us a bright example of self-sacrifice.

2d. We need the sacrifice for ourselves. Abraham did that which was for his own good. He has ever since been greatly honored. We help ourselves by sacrificing. Often our sacrificing is the making of us.

3d. Another reason for sacrifice is

that it makes us stronger. The strongest principles of any nation are those for which it has sacrificed most. So it is with an individual or Christian. Again, only those who have sacrificed know what it is to have true joy. True joy comes to those who are willing to sacrifice their best.

Let us, as we consider this great truth, ask God to show us where we are to make our altar of sacrifice and help us to place upon it our dearest treasure and thus bring to us the great joy of a willing and obedient heart.

J. T. Fitchett led the Y. P. S. C. E. In the evening Mr. Kempton began a series of short summer services. His subject, "Life as a Voyage," was taken from the journey and shipwreck of the Apostle Paul. After the service there was the usual monthly baptism.

RESPONSIBILITY.

Rev. Mr. Denison's Discourse at the Congregational Church.

At the Congregational church yesterday the pastor, Rev. E. O. Denison, preached from the theme, "The Assuming of Responsibility," from the text in John 3:14. He said in brief: One of the beautiful things about the life of man or beast is the care for the young. The first step toward selfishness and therefore toward God, is taken in the family. Life begins to be God-like when it begins to care for others. Because man has more of God in him than the bears his care of his children is more tender, wise and far reaching. He makes a better home, keeps cold and hunger farther from the child, shelters from every injury, provides for all wants. Those lands are the best where home and school are the best. Civilization is the highest in Christianity for these reasons. But this very fact that men do care so well for their children carries with it that crisis in every young life, which forms the subject of our thought.

The children cannot always stay at home. We cannot always have our father to supply every need nor our mothers to soothe every sorrow. We cannot always live at home, kept from all dangers and shielded from the harshness of the world. The step from the sheltered life of the home into the world is the crisis of a young man's life. It is then that his metal is tried. The wise parent is the one who helps this feeling of personal responsibility to grow. The world judges neither with the partiality or pride of a father or with the love of a mother. It tells him just what he is. It puts him in the crucible of actual life, and tries him by whether he be gold or dross. Shakespeare has shown this in his tragedy of Hamlet. The young sheltered prince passes into the realm of responsible manhood. The heir to the throne is now the man who is struggling against the world for existence. This is but the picture of many a young man's life. From a father's and a mother's care and love he goes out into the world, and then it is that he realizes that he is not simply a passenger but the captain of a boat. The first lesson of the world is often taught somewhat rudely. A young man begins to see that he is not of so much importance as he thought. There are many others as smart as he. He finds that the world is not trying to please him—it does not care much if it does hurt his feelings.

The danger of this crisis is that a young man may come to distrust himself. He passes through the agony of self questioning. It may end with his becoming disgusted with life and the world, or he may keep his faith and say, I am a man. I can do my duty somewhere and I will. Then there is danger that a young man may become so wrapped up in his work as to forget God and his higher duty. There is also danger in this crisis that a young man may come to say sin is not so bad after all. Most men sin and perhaps there is nothing eternally bad about sin and nothing so eternally good about truth. He wavers indecisively between truth and error.

But in spite of this danger this coming of responsibility is a wholesome and necessary thing. Without this assuming of responsibility there is no real manhood. This clear sense of responsibility is the heart of greatness.

The evening theme was "If not faith—what?"

HOT WEATHER HELPED THEM

Lines of Business Benefited by the Torrid Atmosphere

The intense heat of yesterday made things very uncomfortable about town although it had a tendency to help out in many lines of business. The soda fountains had no rest from early morning till late at night, and but few of the drug stores closed yesterday on schedule time. Ice cream in no way or form could be had in the city at 1 o'clock in the afternoon.

At Crystal Springs park a goodly number made the trip on the boats just to get relief from the heat, and Capt. Alex. Buchholz reports a good day's business. The livermen reaped a harvest during the greater portion of the evening, while the cars were well patronized throughout the day.

Harlow in discussing the matter today authorized The Gazette to start a flag subscription with a subscription of \$2 from him.

PAYS IN WORTHLESS CHECKS

A Sharper Who Pretends to be Buying Horses for the Government.

Rock county farmers will do well to keep a lookout for a sharper who is going the rounds these days operating successfully. He claims to be an agent for the United States government having authority to buy horses for the army. He visits the farmer, buys two or three horses, gives a check for an amount larger than the purchase price, gets the difference in cash and then disappears with the horses.

The farmer presents the check for payment and finds he has been swindled. Several farmers have been taken in by this sharper in other sections of the state. It is not improbable that he will make his appearance in this vicinity soon.

AN OPERATION AVOIDED.

Mrs. Rosa Gaum Writes to Mrs. Pinkham About It. She Says:

DEAR MRS. PINKHAM:—I take pleasure in writing you a few lines to inform you of the good your Vegetable Compound has done me. I cannot thank you enough for what your medicine has done for me; it has, indeed, helped me wonderfully. For years I was troubled with an ovarian tumor, each year growing worse, until at last I was compelled to consult with a physician.

He said nothing could be done for me but to go under an operation.

In speaking with a friend of mine about it, she recommended Lydia E. Pinkham's Vegetable Compound, saying she knew it would cure me. I then sent for your medicine, and after taking three bottles of it, the tumor disappeared. Oh! you do not know how much good your medicine has done me. I shall recommend it to all suffering women.—Mrs. ROSA GAUM, 720 Wall St., Los Angeles, Cal.

The great and unvarying success of Lydia E. Pinkham's Vegetable Compound in relieving every derangement of the female organs, demonstrates it to be the modern safeguard of woman's happiness and bodily strength. More than a million women have been benefited by it.

Every woman who needs advice about her health is invited to write to Mrs. Pinkham, at Lynn, Mass.

SUNDAY SCHOOL RALLIES

Another of the Series Held At Stebbinsville Yesterday.

The union rally at Stebbinsville yesterday was an unparalleled success. The day being fine great numbers came from far and near. Fulton, Newville, Stoughton, Union, Janesville and Beloit were represented. The program was carried out, there being not a single absentee, quite a remarkable fact when so many were to contribute by address or paper. All were helpful, full of good cheer, and abundantly suggest ion. The people of Stebbinsville were untiring in their efforts to make the affair a bright one. The church building had been entirely renovated for the occasion. The exterior as well as the interior had been subject to the beautifying touch of the artist's brush. No church in Rock county can boast of a more attractive house of worship.

Joseph Weiss, a senior of Beloit, preaches there and at Indian Ford. He was untiring in his efforts to make the meetings pleasant and profitable. The Beloit Male Quartette gave several fine selections. It would be impossible to make mention of the addresses for all were excellent. The committee on resolutions reported the following:

Whereas, we as delegates have assembled for the purpose of encouraging and stimulating the work of bible study among the children of Rock county through the agency of the Sunday school,

Be it resolved, that these meetings or rallies are the best means of stimulating christian work because they bring us together, not as denominations but as christian workers upon one common level, as the children of one God the Father of us all.

That we express our hearty appreciation to the people of this church for their untiring energy, amidst countless discouragements, in beautifying their house of God, and that we express to them our gratitude for their charming hospitality.

That we express our enjoyment of the soul inspiring music furnished by the Male Quartette of Beloit.

That we thank the people whose kindly gave time and thought to preparing the papers for the program.

That we take with us the suggestions thrown out in the thoughtful and inspiring addresses and papers presented which we have heard, and from which we have received so much benefit, and put these suggestions into action in our home schools.

Mrs. P. F. McGee,
Mr. M. RADYON,
AMELIA HARRINGTON,
Chairman.

There will be three more rallies, the next being at Lima on Sunday, June 12.

BIG TRADE YEAR.

Exports of Manufactures Beat All Previous Records.

Washington, June 6.—The manufacturers of the United States are making in the fiscal year which closes with this month their greatest record in competing for the markets of the world. Not only will the exports of manufactured articles for the fiscal year exceed those of any previous year, but for the first time in the history of the country they will exceed the imports of manufactures.

In the ten months of the fiscal year whose detailed record the bureau of statistics has completed the exports of manufactures exceeds by over \$40,000,000 the value of the manufactures imported and it is probable that for the full year this excess will reach \$50,000,000. In no preceding year in the history of the country have the exports of our manufactures equaled in value the imports of manufactured articles. In the fiscal year 1897 the imports of manufactured articles exceeded the value of exports of manufactures by the sum of \$27,862,217. In 1896, by \$104,750,734 and in 1895 by \$121,413,783.

Another Charnley Suicide.

Los Angeles, Cal., June 6.—Charles M. Charnley, Jr., of Chicago, aged about 24, committed suicide here Saturday night by shooting himself through the head in his room. The suicide was the son of Charles M. Charnley, Sr., who fled from Chicago a year or so ago, a defaulter in the sum of \$100,000 to a college aid society of the Presbyterian church, of which he was treasurer. His sons are said to have been working to reimburse the society. The eldest son, J. B. Charnley, broke down under the strain and worry of the affair last winter and committed himself in Milwaukee.

Merit Plan for War Clerks.

Washington, June 6.—The eighty-two clerks to be added to the office forces of the auditors of the navy and war departments, under a recent act of congress, will be secured through civil service. Although the language of the act left it a matter of some doubt as to whether they might not be appointed independent of the civil service law, Secretary Gage and Assistant Secretary Vanderlip at once decided to put the places under the rules.

Riotous Italians Found Guilty.

Paris, June 6.—A dispatch from Lugano, Switzerland, to the Petit Republicain, says that Senator Costa and Senator Andreis of the Italian chamber of deputies and the correspondents of the Secolo and the Italia del Popolo, who were arrested at Turin during the recent riots, have been sentenced to imprisonment for terms of from ten to eighteen years for inciting the people to civil war.

Supplies Sent to San Francisco.

San Francisco, Cal., June 6.—Immense supplies of mining stores, implements, etc., are being bought here under the direction of Capt. Potter of the engineer corps of the regular army. He is an expert on the subject and will take with him to Manila everything necessary for mining the harbor and strengthening the fortifications.

BECOME A MAN

PATIENTLY WAITING
ORDERS TO MARCHFIRST REGIMENT BOYS EXPECT
TO LEAVE SOON.

Will Be Under Command of General Fitzhugh Lee—All Are Improving in Drill and Soldierly Aspect—Fun With the Graybacks—Personal Mention.

Jacksonville, Fla., June 2.—From what I can learn here, we are, today to hold ourselves in readiness, to move inside of twelve hours. As every man can be ready in one half hour to go to any old place, the loading of extra, already (containing I am informed) one day's rations, would necessitate the delay in getting started.

Gen. Lee has selected the First Wisconsin and Second Illinois, both by far the best troops here to go to Cuba, if volunteers are ordered there. My own opinion is that proper equipment necessarily will keep us on land for some weeks and while we may move to Tampa to be nearer the coast, I do not think any but great need of our services will take our army away from this model camp ground of the south. However, it is an assured fact that Col. Schellard and Moulton have orders to move at a day's notice.

The boys feel really like soldiers at last. We have but one suit of clothes with us, buttonless and soiled, patched and in need of patches, too small or two large. But a cadence of step, a precision of manual, a brown, sun-burned face and a capability of standing hard marches have brought us up to a standard that puts us on top and brings throngs of society people and the "cultured" population to crowd and jostle each other at our evening parade.

But what finally convinces us that we are "all right" is the arrival of that army post—the grayback. They are with us in squads and regiments. Sergeant Brown says they are genuine as everyone he has seen is stamped U. S. A. But Private Dixon claims some of them are marked W. N. O. Anyway they are with us and we feel that we are truly members of an army.

Privates Atkinson and Irish had leave to attend a church social Tuesday evening. They report a very cordial reception and pleasant time. Private Wilbur is a guest at a party down town tonight.

Privates Sheldon and Fletcher were busy last week making up for lost time at a banquet given down town by a son of Senator Mitchell, who has been a private in the Milwaukee battalion. He has secured a commission and goes to Washington on the signal corps.

Our band plays for down-town excursions of exercise almost every evening. Private Dunham reports best of treatment on the part of citizens.

General Lee has not been to call upon Co. A up to yet, but is expected any time.

It is claimed that it would take about three weeks to become acclimated here. We are doing so easily. But for usual camp disorders health remains excellent. Private Baxter is feeling pretty poorly, and Private Butterfield is just recovering from a bilious attack.

Private Eames has been ordered to report, and by the time this is in print will probably be with us.

A large gospel tent has been erected, and services are conducted nightly by town clergymen and regimental chaplains. It is just outside the lines and midway between the Wisconsin and 2d Illinois.

DR. BROWN STILL IN JAIL

His Friends Have Made No Effort to Secure His Release.

Dr. Robert L. Brown, the veterinary surgeon who was arrested and put in jail Saturday on the charge of forgery, is still behind the bars, having failed as yet to secure bondsmen. Other forgers are known to have been the work of his pen, among them one out of Moore, chairman of the Rock county board of supervisors to the amount of \$800.

A host of friends called at the jail yesterday and had long interviews with the prisoner, who seems to be much affected over his downfall.

It is said to be the purpose of Dr. Brown's friends to plead insanity as an extenuation of his offense. He is said to have been somewhat flighty of late, and some claim that he was not morally or legally responsible for his acts. The fact that he made no effort to escape when he knew detection was inevitable is cited as evidence of his mental unsoundness.

INSANE MAN BROUGHT BACK

Thomas Drew Had Wandered Off to North Dakota While Demented.

Thomas Drew, of the town of Magnolia, is now occupying a cell in the Rock county jail charged with being insane.

The unfortunate man was brought to this city yesterday morning by Sheriff Acheson from Jamestown, North Dakota. This evening he will be examined by Drs. J. B. Whiting and E. F. Woods, and there is little doubt but what he will be sent to the state hospital at Mendota for treatment.

Sunday at Camp Cuba Libre.

Jacksonville, Fla., June 6.—Sunday in camp passed off quietly. There were few drills or exercises and the greater majority of the troops attended services. Some availed themselves of excursions, going to the seashore or taking trips on the river. An order was issued by Maj.-Gen. Lee naming the camp Cuba Libre, and it will be known as such in the future.

Wisconsin Men Are Questioned.

Madison, Wis., June 6.—It may be that on the second call for volunteers Wisconsin will have to furnish only the 990 men required to fill the Wisconsin regiments up to the standard of 106 men for each company. The matter is, of course, in doubt until orders are received from Washington, but the plan is a likely one.

Mohican Goes to Honolulu.

San Francisco, Cal., June 6.—Marines were hurried aboard the sloop Mohican and she sailed Sunday for Honolulu. She went from Mare Island through the Golden Gate, so there was no demonstration. The Monterey is expected to leave to-day. Her consort, the Brutus, came down from Mare Island last evening.

Regulars All Gone from Mobile.

Mobile, Ala., June 6.—The Fifth cavalry left camp early Sunday morning by way of the Louisville & Nashville road for Montgomery, there to take the Plant system to Tampa. The Eleventh infantry took the same route during the afternoon and the camp of regulars is no more. Five regiments of volunteers remain.

Wholly Differ in Sentiment.

Tacoma, Wash., June 6.—The English newspapers at Hongkong, Shanghai, and Yokohama express strong sympathy with America in its Spanish war, while the Portuguese papers at Macao and the French papers at Tonkin call Dewey's attack on Manila an act of Yankee brigandage and piracy.

Blanco Will Shoot Reporters.

Havana, June 6.—Capt. Gen. Blanco has issued a decree prohibiting the stay in Cuba of foreign correspondents, who, the decree declares, will be regarded as spies and their cases submitted to the military code. This is interpreted to mean that they will be shot.

Fleet on Its Way to Cuba.

London, June 6.—A dispatch to the Telegraph from Gibraltar says it is believed there that the Spanish reserve fleet is now seven days outward from Cadiz bound for Cuba.

WOULD FIGHT ON.

Fresh Development of War Spirit Is Noted in Spain.

Madrid, June 6.—The consensus of press opinion points to a fresh development of warlike feeling among all classes, which overrides the influence of the partisans of peace, who are not numerous in the best-informed circles.

The military authorities are active at Tarifa and Algeciras, preparing to oppose some expected British seizure of vantage ground near Gibraltar.

A prolonged cabinet council was held Sunday, of which important decisions were arrived at, resulting in the telegraphing of extensive instructions to Admiral Camara, commanding the fleet at Cadiz.

Troops for Manila.

San Francisco, Cal., June 6.—It is learned, on the best authority, that the assignment of troops to the next transport fleet to Manila will be as follows: Steamship China—First regiment, Colorado volunteer infantry; half of battery B, Utah light artillery, and companies A and G, Eighteenth United States Infantry. Zealandia—Tenth regiment, Pennsylvania volunteer infantry and half of battery B, Utah light artillery. Colon—First battalion, Twenty-third United States Infantry; two companies of Eighteenth United States Infantry, and battery A, Utah light artillery.

Quiet Along the Blockade.

Key West, Fla., June 6.—The impending invasion of Cuba and the Santiago situation are the only topics of interest here. Intense anxiety is felt for more and definite news from Commodore Schley and Rear-Admiral Sampson, and the north coast blockade has become a minor incident. The only arrival from off Havana reports an unchanged condition there. The ships are still stationed in line and have relaxed none of their vigilance, but during the last few days nothing has occurred to vary the tedium of the wait.

Spies Must Leave Canada.

Washington, June 6.—Steps have been taken by which it is expected that Lieut. Carranza, who has conducted the Spanish spy system from Montreal, with his associate, Senor du Bose, former first secretary of the Spanish legation here, will be expelled from Canada within the next few days unless they adopt their own means to leave before an international question is raised as to their presence in Canada.

Says Spain Is Doomed.

London, June 6.—According to a dispatch from Madrid, El Heraldito says with regard to the situation at Santiago de Cuba: "It is one more disenchantment which proves that there is no remedy for Spain's misfortunes. Cervera's squadron at Santiago is of little advantage either for itself or for what it represents. It can neither hinder the Yankee expedition nor strengthen the defense of Havana. Spain was never before led through such a straight road to perdition."

Col. Ernst to the Front.

Washington, June 6.—Col. O. H. Ernst, corps of engineers, superintendent of the West Point military academy, who was recently appointed a brigadier-general of volunteers, has been ordered to report to Maj.-Gen. Wilson, commanding the Sixth army corps at Chickamauga, for assignment to a command.

Killed a Bear With a Stone.

Charles Ledig, a California mail carrier, met a cinnamon bear in a wild spot the other day. All he could do was to throw a stone at the animal, but you can imagine his surprise when the missile hit the bear between the eyes and dropped him like a shot, dead.

NAVAL BATTLES REPORTED.

Rumors of an Engagement Near Jean Bahel.

NAMES OF SHIPS NOT KNOWN.

Three Spanish and Four American Vessels Said to Have Been Engaged—Spaniards May Be the Vanguard of the Fleet Which Has Been at Cadiz.

Cape Haitien, Haiti, June 6.—The United States troopship Resolute, formerly the Yorktown, under convoy of the torpedo boat destroyer Mayflower, the converted Ogden Goellet yacht of the same name, arrived at Mole St. Nicholas Saturday and departed shortly after. Advices from Mole St. Nicholas say that Saturday some distance off Jean Bahel, a seaport on the northwest coast of Haiti, half-way between Port de Paix and Mole St. Nicholas, a combat took place between three Spanish and four American warships.

The American ships are said to have withdrawn from the combat. One of the Spanish warships entered the harbor of Jean Bahel for water. The officers of the ships lying at Mole St. Nicholas were extremely reticent. Jean Bahel is an insignificant seaport and there is no telegraphic station there. It is thought possible that the Spanish ships encountered were the vanguard of the Cadiz fleet.

The names of the American ships are not ascertained, but it is believed here that they were probably scouts.

The steamer St. Simon, which arrived here Sunday from Havre, reports that one Spanish cruiser and two or three Spanish torpedo boats were at San Juan de Porto Rico Friday at noon. She saw no warships elsewhere.

Kingston, Jamaica, June 6.—A dispatch from Port Antonio says: "A vessel that has arrived here from Santiago de Cuba reports that the Americans sunk on Friday night the Spanish torpedo boat destroyer Terror."

The assumption, based upon dispatches from Madrid, has been that the destroyer Terror, after leaving Port de France, went to Porto Rico waters, and it is probable that the Port Antonio dispatch confuses her with her sister destroyer, the Furor, as has several times been the case in dispatches from other points.

St. Pierre, Martinique, June 6.—The British steamer Twickenham, having remained at Port de France several weeks without getting permission to land her cargo of 4,000 tons of coal consigned to the Spanish consul, has left for Jamaica.

There are numerous reports that a fleet was seen off the northwest of the island yesterday, and it may be that the Twickenham goes to coal the ships.

FIRST ARMY MUSTERED IN.

Only 200 Short Now of the 125,000 Men Called.

Washington, June 6.—The first army of 125,000 has been virtually mustered in and today or tomorrow will undoubtedly find the muster rolls completed. It now needs but 200 men to bring the volunteer army up to its authorized numerical strength.

The delay in the equipment of troops is largely due, say the army quartermasters, to the fact that not more than 40 per cent of the volunteer force came from the militia. The Washington authorities were led to believe, from reports received from state officials, that fully 90 per cent of the volunteers would be militiamen, who would come into the general service equipped and clothed. The work of providing for 60 per cent of the volunteer force has entailed great labor upon the quartermasters, who have been further hampered in their work by the difficulty in securing some of the material and by the delays in production and delivery on the part of contractors.

Warning from a Russian Paper.

St. Petersburg, June 6.—The Novosti, commenting on the supposed intention of the Spanish government to appeal to the powers to intervene, says: "It is full time to end a senseless and criminal war. Spain's appeal is a sort of capitulation, but on the other hand America must voluntarily submit her pretensions to a tribunal of the powers. America cannot avoid doing this, as her position, with two long and exposed coast lines, is not such as could withstand the combined fleets of two or three European powers. Let Europe raise her mighty voice and restore that peace to which mankind looks for the only peaceful expansion and for the triumph of civilization."

Keeps the Colored Officers.

Richmond, Va., June 6.—Governor Tyler announces that he will return the two battalions of negro infantry, called for from Virginia, over to the government, with their present officers. He has been much concerned and had great pressure brought to bear on him to induce him to appoint white officers, but he has decided not to do so, holding that a distinction would be drawn in violation of the spirit of the fourteenth amendment to the constitution.

To Adjust Mining Trouble.

Springfield, Ill., June 6.—The state board of arbitration will hear arguments of the operators and striking coal miners of the Fourth district on Friday. President Hunter and William Sealife, and ex-president, will present the arguments of the miners. Wood Marble of Virden will defend the operators.

Iowa Men Off for the West.

Des Moines, Iowa, June 6.—The Fifty-first regiment of Iowa volunteers left for San Francisco Sunday morning under command of Col. Loper.
